

List of supported wireless peripherals of the CA-2103

Remote controllers

	Description	Four-button
JA 182J	Wireless remote control	
JA-152J MS	Bi-directional two-button keyfob	
JA-154J MS	Bi-directional four-button keyfob	✓
JA-162J	One-way two-button keyfob	
JA-164J	One-way four-button keyfob	✓

Periphery JA18x

	Description	
JA-180B	Wireless acoustic glass-break detector	
JA-180P	Wireless motion PIR detector	
JA-180PB (P)	Wireless PIR and glass-break combined detector	
JA-180PB (B)	Wireless PIR and glass-break combined detector	
JA-180W	Wireless PIR and MW combined detector	
JA-181M	Wireless magnetic door detector	
JA-182SH	Wireless shock or tilt detector	
JA-183M	Wireless magnetic detector - smaller design	
JA-185B	Wireless ceiling glass-break detector	
JA-185P	Wireless ceiling PIR detector	
JA-186P	Wireless dual PIR indoor detector	

Periphery JA-100

	Description	Natur reaction
JA-150M	Wireless magnetic detector with 2 universal inputs	delay
	<i>Note: both inputs react without identification</i>	
JA-151M	Mini wireless magnetic detector	delay
JA-150P	Wireless motion PIR detector	delay
JA-151P	Wireless PIR motion detector	delay
JA-150IR	Wireless optical barrier	instant
JA-151IR	Wireless 4beam optical barrier	instant
JA-157P	Dual zone outdoor wireless motion detector - curtain	instant
	<i>Note: the antimasking function is not supported</i>	
JA-158P	Wireless outdoor PIR detector	instant
	<i>Note: the antimasking function is not supported</i>	
JA-159P	Wireless outdoor PIR detector	instant
	<i>Note: the antimasking function is not supported</i>	
JA-150ST	Wireless fire and temperature detector	fire
JA-151ST	Wireless combined smoke and heat detector	fire
JA-150G-CO	Wireless module for connection of an Ei208W(D) CO detector	fire
