

AX PRO SOLUTION

INTRUSION AND VIDEO, REFOCUSED

KEY FEATURES

The core building blocks of the AX PRO Solution.

Video verification

Offering a wider view.

The AX PRO incorporates IVaaS, integrating video verification capabilities with 4 camera video buffer ON-BOARD, to show the customer exactly what's happening, so they can take appropriate action.

Powerful wireless connection

The future is now.

Fast, reliable and secure, our powerful Tri-X Wireless Technology delivers the next level of security; speeding up installations, while delivering the best experience for both installers and their customers.

Jamming detection

Don't be a victim of jamming or interference!

Advanced anti-jamming security on our radio protocol protects the integrity of the system over the long term, providing increased stability and security.

EU certification

Be safe in the knowledge your system is fully EN Grade 2 compliant. Building a resilient system tailored to individual needs, without compromising on effectiveness and reliability.

Slick design

We are family!

With the AX PRO, the entire range of security, safety and video products deliver the same stylish, professional and uniform finish with equally outstanding performance.

Easy installation

The smart installation choice

With faster installation and flexibility, over time the panel auto-adapts to changing ISP or equipment; now that's clever through features like auto-enrollment and quick-install peripherals, you can do more.
