

INT-FI

FIBER-OPTIC INTERFACE

INTEGRA expansion modules are the very important part of SATEL products portfolio. They can be used to expand the functionality of the panels, and to adjust the system to individual needs. Apart from zones and output expansion, they enable additional features such as e.g. access control.

FEATURES

- **INTEGRA** keypad and expansion buses to fiber-optic conversion
- support for two fibre pairs allowing modules daisy-chaining
- communication range between transmitter and receiver up to 2 km
- high immunity to interference
- full galvanic isolation
- supported also by the **ACCO** (RS-485)

TECHNICAL SPECIFICATION

Power supply	12 V DC ±15%
Current consumption, standby	120 mA ±20%
Current consumption, max.	160 mA
Environmental class according to EN50130-5	II
Operating temperature range	-10°C...+55°C
Electronics board dimensions	80 x 57 mm
Weight	125 g
