

## JA-157J Wrist & Necklace Panic button

It is designed to allow the user to remotely activate a panic alarm, furthermore it may be utilized for the remote control of devices and appliances. The button has various uses, it may be worn on the user's wrist with the use of a wrist strap, worn around the neck or it may be fixed onto a surface with the use of a simple mounting platform.

### TECHNICAL SPECIFICATION

<b>Power</b>	lithium battery, type CR 2032 (3.0 V/0.2 Ah) - included
<b>Typical battery lifetime</b>	approx. 3 years
<b>Maximum power consumption</b>	40 mA
<b>Compatibility</b>	control panels JA-103K, JA-107K
<b>Communication frequency</b>	868.1 MHz, Jablotron protocol
<b>Maximum radio-frequency output (ERP)</b>	5 mW
<b>Communication range</b>	approx. 300 m
<b>Classification</b>	Security grade 2 / environmental class II, (EN 50131-1)
<b>Environment</b>	Indoor general
<b>Ingress Protection Code</b>	IP 65
<b>Operational temperature range</b>	-10 °C to +40 °C
<b>Dimensions (without accessories)</b>	41 x 41 x 13 mm
<b>Weight (without accessories)</b>	20 g

### PRODUCT CONTENTS

- ✓ WRIST STRAP
- ✓ MOUNTING PLATFORM (w/o tamper protection)
